

Ben Franklin Transit MOA Base

Richland, Washington

Merritt's responsiveness to client service...

This new headquarters base, located at the Richland “Y”, provides complete administration, operations, and maintenance facility for the 60-bus Ben Franklin Transit System. Administrative space includes meeting rooms and general offices. Operations space includes dispatch, locker facilities, and driver support areas. The maintenance facility includes work bays, a drive-through bus wash, fueling, and support facilities. This project in the Tri-Cities area illustrated Merritt’s responsiveness to client service in the Tri-Cities area over an extended period. This project also embodied technical programming and special design challenges.

Product Data

Date of Occupancy: 1987

Cost: \$4.2 million

Size of Project: 28,000 square feet

Owner Contact: Ben Franklin Transit
